Body Font Size	14px to 15px for readability
Touch Targets	Minimum 44px height for all buttons
Scroll Type	Single column vertical scroll

Note: Website must be fully responsive — layout should automatically adjust when switching from desktop to mobile.

03. Website Logo

Brand identity and visual impression

The logo is one of the most important parts of the website. It creates the first impression on every visitor.

Logo Requirements

- Logo will be designed by the website owner (you)
- Style: Wooden texture, rustic, artisan feel
- Recommended format: SVG or PNG with transparent background
- Favicon size: 32 x 32 pixels (browser tab icon)
- Header logo size: 150 x 50 pixels (wide format)
- Colors should match website theme: Browns, Gold, Warm tones
- Logo must include: Icon/symbol + Business name text

Logo Placement

- Top-left corner of the Navbar on all pages
- Footer section (smaller version)
- Browser tab as Favicon

04. Website Pages — Complete List

All 7 pages with purpose and importance level

1	Home	Landing page — Hero section, intro, skills overview, featured work, call-to-action buttons	Critical
2	Our Work	Showcase all wooden work projects — furniture, doors, cabinets with descriptions	High
3	Order	Main order form — client fills name, phone, service type, budget, project description	Critical
4	Gallery	Photo gallery of completed work — browse images by category	High
5	About	Business story, carpenter profile, years of experience, skills, mission and values	Medium
6	Contact Us	Phone, WhatsApp, email, location map, working hours, contact form	High
7	Settings	Theme switcher (Light/Dark/Warm), language, notifications, account options	Medium

05. Order Panel — Main Feature

The most important functional section of the website

The Order Panel is the most important part of this website. Its main purpose is to allow clients to directly submit a work request without needing to call or message separately.

Order Form Fields

Field 1	Client Full Name (Required)
Field 2	Phone Number (Required)
Field 3	Service Type (Dropdown: Furniture / Doors / Cabinets / Flooring / Carving / Other)
Field 4	Estimated Budget (Text input in PKR)
Field 5	Project Description (Large text area — client describes what they want)
Field 6	Preferred Delivery Date (Date picker — optional)
Field 7	Upload Reference Image (Optional photo upload)

Order Panel Location

- Available as a dedicated full page under the 'Order' tab
- Also visible as a quick form section on the Home page
- A floating 'Order Now' button on all pages for easy access

After Order Submission

- Client sees a confirmation message on screen
- Auto email or WhatsApp notification sent to business owner
- Order is saved in admin panel for tracking

06. Website Content — Wooden Work Skills

All services and skill categories to showcase

Each skill should have its own section with a title, description, and sample images. This helps clients understand what work is available.

Custom Furniture	Chairs, tables, beds, sofas — materials used, wood types, finishing options
Doors & Windows	Interior doors, exterior doors, wooden windows — design styles available
Kitchen Cabinets	Modular kitchen cabinets, wall cabinets — measurements, colors

Wardrobes	Built-in wardrobes, sliding doors, interior organization options
Wood Flooring	Hardwood flooring installation — plank types, polish, maintenance
Decorative Carving	Hand-carved panels, decorative art, calligraphy in wood
Restoration Work	Repair and restore old furniture, refinishing, polishing services
Custom Orders	Any unique wooden item based on client design or reference image

07. Gallery Interface

Photo gallery for showcasing completed work

Gallery Features

- Grid layout — 3 columns on desktop, 2 columns on mobile
- Filter buttons by category: All / Furniture / Doors / Cabinets / Carving / Flooring
- Click on any photo to open full-size lightbox view
- Each photo has a caption with project name and location (optional)
- Admin can upload new photos directly from Settings panel
- Maximum recommended image size: 1200 x 900 pixels, JPG format

Gallery Organization

Category Tabs	All Work / Furniture / Doors / Cabinets / Carving / Flooring
Sort Options	Newest First / Oldest First / By Category
Photo Upload	Owner uploads from admin/settings — clients cannot upload
Image Format	JPG or PNG, max 5MB per image
Gallery Limit	No hard limit — all completed projects should be added

08. Theme & Color Settings

Light, Dark, and custom color themes

The theme system allows users to change how the website looks. This is controlled from the Settings page.

Light Mode	White background, dark brown text	Daytime use, professional look
Dark Mode	Dark background, light text	Night use, low-light environments
Warm Wood	Warm beige background, brown tones	Brand-matching, cozy feel

Classic	Cream background, black text	Traditional, formal look
----------------	------------------------------	--------------------------

09. Website Structure Overview

Feature list with status and priority
